

DOTNETNUKE SOLUTIONS

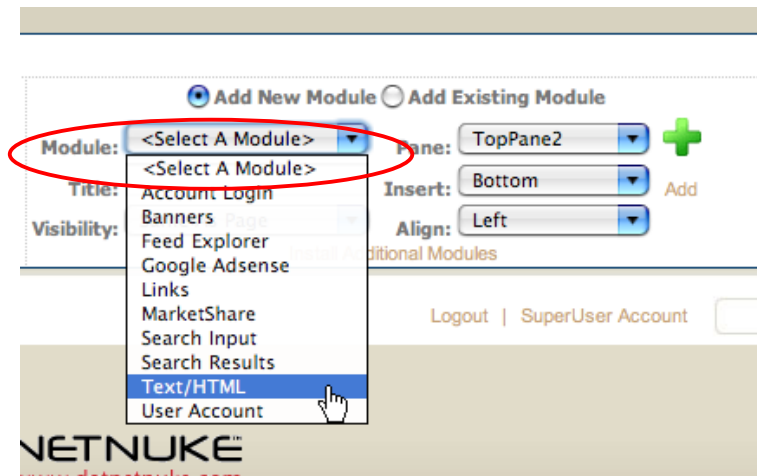

Page Management

In DNN CMS System w.r.t. containers and contents...

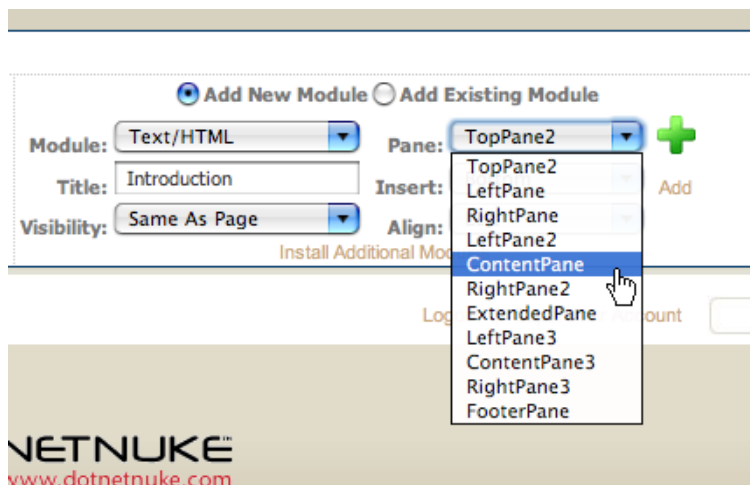

Note:

All screenshots and demonstration are on local server (or localhost)...

- If you want to add contents, then select **Text/HTML** under then **Module** dropdown box.

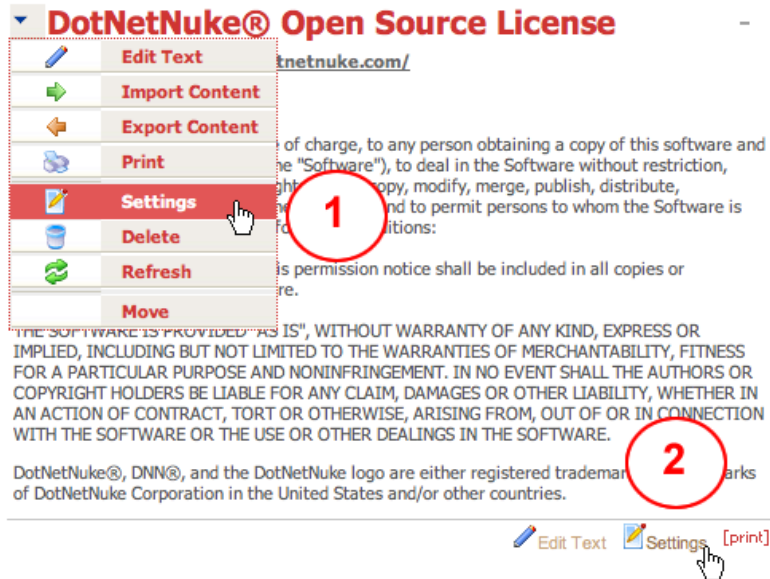

- Then enter title or heading if you want.
- Then select container where you want to place it, like “**content pane**” , etc

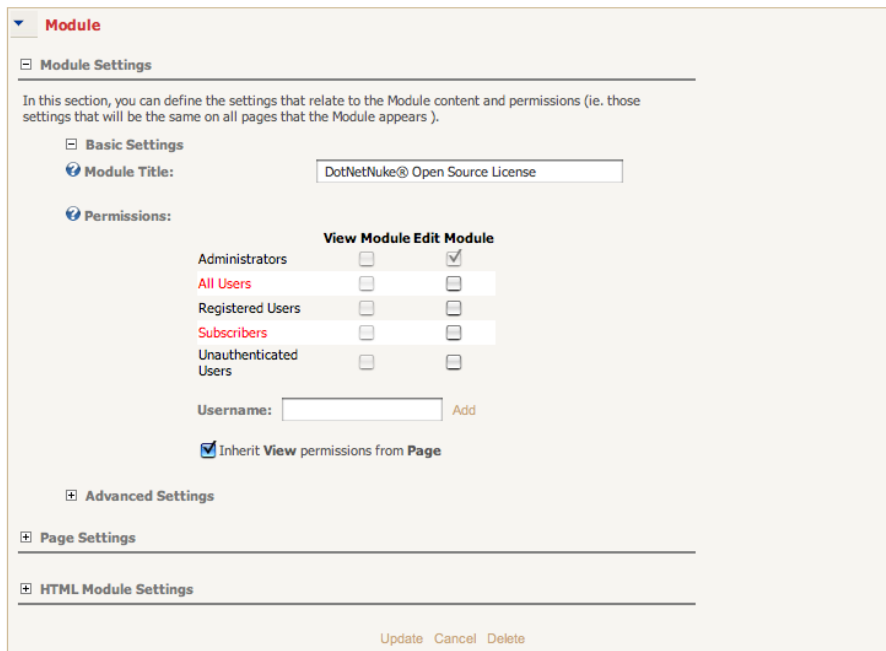

- Then click on ADD icon.
- Then you will see a default container in then content pane.
- If you want to change then container or other setting then move your mouse to Action button of then container, then click on settings.

Note:

There are two ways to go to any container's **Setting** section, same as with **Edit Text**.

- Then you will see text module setting page, you can change container / module title from here also, and you can also set permission from here...

- Then click on Page Setting plus Icon.

- Then you will see...

Page Settings

In this section, you can define settings specific to this particular occurrence of the Module for this Page.

Basic Settings

Icon: **File Location:** Root **File Name:** <None Specified> [Upload New File](#)

Alignment: Left Center Right Not Specified

Color:

Border:

Visibility: Maximized Minimized None

Display Container?

Allow Print?

Allow Syndicate?

Host **Site**

Module Container: Creative-interior-red - cnt-1 [Preview](#)

Cache Time (secs): 3600

- Then click on module container combo box to change containers...
- If you want RSS icon bottom to skin then you can check on **Allow Syndicate?**

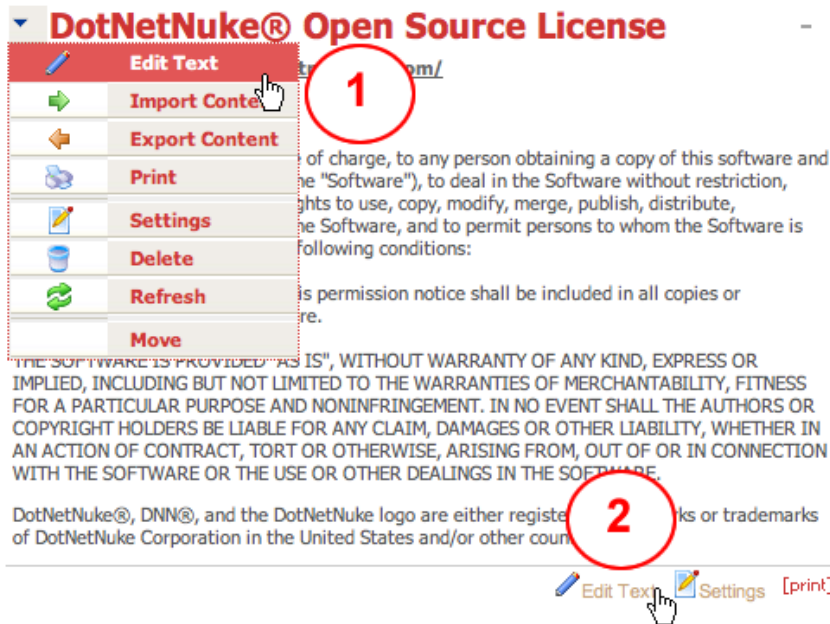

Note:

If your containers have the ability to show RSS icons, like RSS token is available in the container then you are able to see RSS icon on the bottom of container...

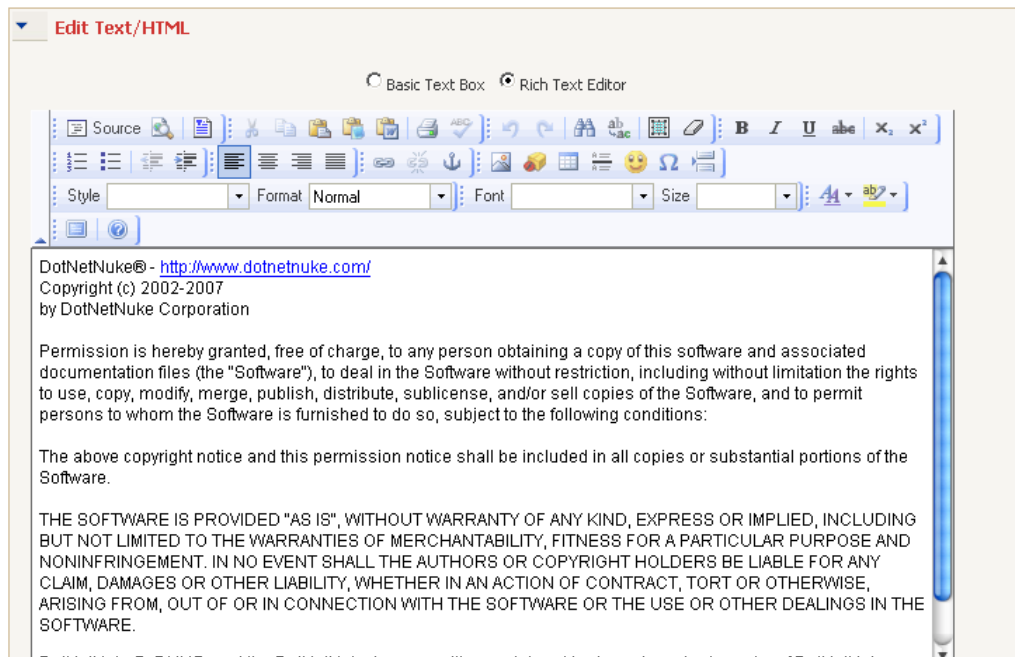

- Then Click on **Update** Link...

Content Placement...

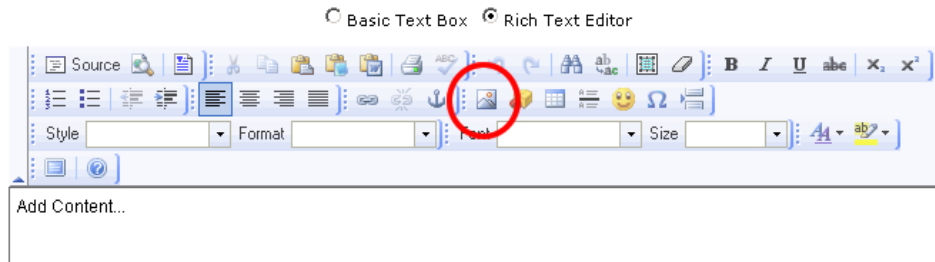

- Click on **Edit Text** link in the container

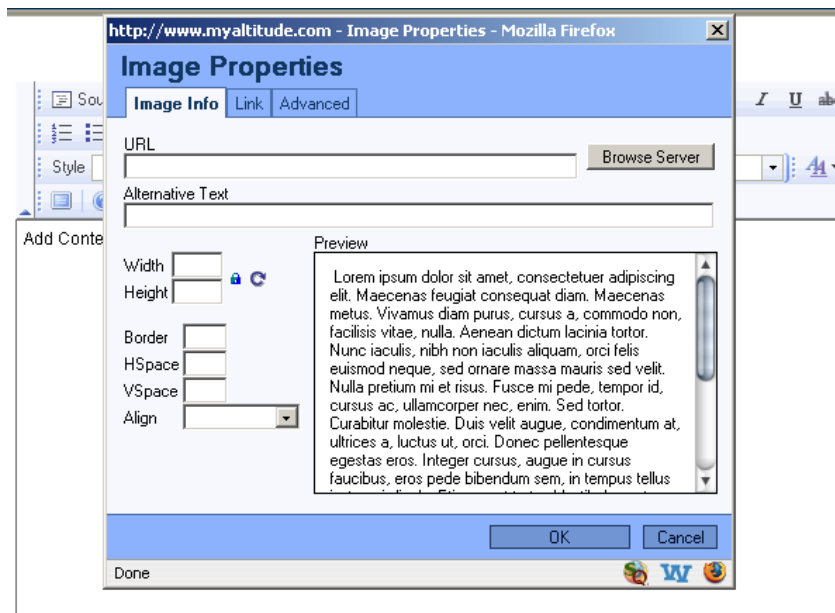

- And some time if you will not see Edit Text link then simple hove your mouse to Container's Action Buttons then click on Edit Text link in the drop down menu...
- Then you will see that page

- Insert Text, images and then further formatting is applicable...
- If you want to add image then click on that icon.

- Then a new window opens.

- Then press OK Button after selecting image.
- Then click on **Update** button.
